SUMMARY

Frontend Developer with experience in React.js, Angular and Next.js. I have worked on real-world projects during my 1-year internship, focusing on building responsive web applications, and user-friendly interfaces. I have delivered projects including a live e-commerce platform, ERP system and a real-time military tracking system.

EDUCATION

University of Gujrat

Nov 2022 - Jul 2026

BS Computer Science

- Hafiz Hayat Campus, Gujrat, Pakistan
- CGPA: 3.64
- Courses: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Operating Systems, Advanced web development, Deep learning, Computer Networks, Information security

WORK EXPERIENCE

Compuwiz Technologies, Remote

2025 - 2026

Frontend Developer Intern

- Collaborated with development team to engineer and maintain responsive, interactive applications for real-world clients.
- Developed and maintained responsive administrative web applications using Angular, streamlining internal data management and daily operations.
- Architected intuitive, user-friendly interfaces for complex admin dashboard and increase the response time by 30%.
- Optimized frontend performance and state management by 20%, enabling admins to interact with and process large datasets efficiently.

PROJECTS

PetEase - Final Year Project

Built live e-commerce platform using React.js, and Spring Boot, Git and GitHub. Teamed with two developers to build responsive UIs and seamlessly integrate REST APIs. Utilized Postman for API testing. Implemented product listings, secure order workflows, and vet consultation services. Integrate ERP system in e-commerce platform.

Military Dashboard

Developed a full-stack real-time military tracking web application using Angular and Spring Boot. Designed and tested RESTful APIs using Postman. Implemented real-time data tracking and alert systems to provide instant updates and threat alerts. Managed version control via Git and GitHub.

Portfolio

Engineered an immersive, physics-driven personal portfolio using Next and Framer Motion, featuring custom 3D carousels, parallax scrolling, and a cinematic glassmorphism UI.

SKILLS

Technical: Responsive Web Design, Integrate Authentication & Authorization, HTML, CSS, Bootstrap, JavaScript, Typescript, React.js, Next.js, Angular

Soft Skills: Problem solving, Time management, Teamwork

CERTIFICATIONS

HEC National skill competency test Qualifier, Higher Education Commission Pakistan, Advanced Web Development Certification (hands-on experience in full-stack web development), freeCodeCamp, Certified in Cybersecurity (CC) - gained foundational knowledge in cybersecurity principles, (ISC)²

ACHIEVEMENTS

- HEC National skill competency test Qualifier, Higher Education Commission Pakistan
- Advanced Web Development Certification (hands-on experience in full-stack web development), freeCodeCamp
